

What researchers need to know about systematic searching before publication

Course Description

Systematic literature searching skills are essential for research and publication. Deepen your knowledge and skills to improve the overall quality of your literature search. We will cover key searching principles and demonstrate techniques for designing and refining strategies. Searching principles are applicable across disciplines.

Learning Objectives

You will be able to:

- Formulate an appropriate research question
- Design an effective search strategy
- Apply advanced search techniques
- Evaluate search results and refine strategy
- Document and report your search methods

Participants are asked to submit their search tool preference until April 13, 2024, 09:00 a.m. to:
<https://forms.office.com/r/r7pVLQsYfL>

Please understand that in case you do not submit, your participation will be cancelled, and your place will be offered to your fellow researchers on the waitlist.

Trainer

Tania Rivero, MLIS, University of Bern

Target Group

PostDocs and PhDs in the fields of medicine, human and social sciences with some prior knowledge of literature searching.

Language	English
Nr of Participants	15
Requirements	N/A
Date	Thursday, May 2, 2024, 09:15 a.m.-12:00 p.m.
Location	University of Bern, Main Building, Hochschulstrasse 4, room 104
